

# Robin Kuri

## WORK EXPERIENCES

Software Developer

Mar 2022 - Present

### BIBA-Bremer Institut für Produktion und Logistik GmbH

- Developed Qualiexplore website, transitioning it from static to dynamic framework.
- Resolved front-end issues in Angular, enhancing functionality and user experience.
- Enhanced login system security and efficiency with MongoDB and Flask.
- Built backend API with Neo4j, following GraphQL standards.
- Developed RASA chatbot for natural language processing and conversation management.
- Implementing Docker-based deployment for scalable application deployment. Responsible for rewriting and building Docker images for Authentication backend and Qualiexplore front-end.

Web Developer

Aug 2021 - Feb 2022

### Evers Rechtsanwälte für Vertriebsrecht

- Developed engaging user interfaces with HTML5, CSS3, Angular, and GSAP animation for enhanced user experience and visual appeal.
- Resolved responsive and animation issues for seamless functionality across devices and browsers.
- Upgraded login and registration features with Angular, NestJS, and MongoDB, improving security and scalability.

Web Developer

Mar 2021 - Jul 2021

### Klimaschutz For ALL e. V

- Developed CO2 footprint tracking functionality using PHP, JavaScript, and WordPress.
- Utilized MySQL for seamless data storage and retrieval, integrating it with the existing WordPress infrastructure.

## EDUCATION

University of Bremen, Germany/ Master of Science

Subject: Digital Media

Noakhali Science and Technology University, Bangladesh/ Bachelor of Science

Subject: Computer Science and Telecommunication Engineering

## PROJECTS

- QualiExplore
- Authentication Server
- Hotel Management System
- Recipe App
- Play With Node
- Breast Cancer Analysis
- Masters Project :
  - CSS4Impact
- Dockerhub Images:
  - quali-json-server
  - i4q-editing-environment
  - gql-mongo

## CONTACTS

- +491639717862
- robin4@uni-bremen.de
- in/robin-kuri/
- https://github.com/RobinIR
- Luisental 28, Bremen

## SKILLS

- HTML5
- CSS3
- BOOTSTRAP5
- JS(ES6)
- ANGULAR12+
- CANVA
- PYTHON
- MONGODB
- NEO4J
- GRAPHQL
- MYSQL
- JIRA
- DOCKER
- GIT
- WSL

## CERTIFICATES

- LinkedIn Skill Assessment badge on Angular
- Programming for Everybody
- Python Data Structures
- Sustainable IOT
- Hochschulpries 2022

## PUBLICATIONS

- Design and Development of a Single-Axis Solar Tracking System
- ATM Shield: Analysis of Multitier Security Issues of ATM in the Context of Bangladesh

## LANGUAGE

- German
- English
